

Bale Spears

ROUND | SQUARE

Specifications

- Tapered design of the round bale spear provides reduced drag resistance for easier insertion or removal. Multiple-point support gives extra bale stability.
- Low-profile design provides unrestricted visibility to the spear and tine tips.
- Round bale main spear and square bale tines are retained with bolts, making them easier to replace. Helps eliminate weld fractures, too.
- Quick-Tatch™ mounting provides quick and easy hookup and removal.
- Like all Worksite Pro™ attachments, these bale spears are optimized to work with our 244J Loader, and D-Series Skid Steers and Compact Track Loaders, and are compatible with many competitive models. See your local John Deere skid steer dealer for details.

	ROUND BALE SPEAR	SQUARE BALE SPEAR
Weight	87.82 kg (193 lb.)	171 kg (375 lb.)
Height	485 mm (19 in.)	561 mm (22 in.)
